ABOUT THE COMPANY

Jiangsu Hongqi Sports Products Co., Ltd. was established in 1996 in Danyang city, Jiangsu province, a national sanitary city with beautiful scenery and convenient transportation. We are a professional production factory, the product range includes latex resistance band, latex elastic band, resistance tube, theraband, sphygmomanometer ball, latex inflatable bladder, as well as other rubber and plastic products. Products are widely used in medical, sports, leisure, daily necessities and other areas. As an enterprise integrating research and development, production, assembly and sales, the factory has been developing innovative products, expanding product structure and developing new market opportunities for more than 20 years since its establishment.

Hongqi latex production base covers an area of 667 square meters., with a full range of latex production and processing technology, as well as leading automated production lines. We have a number of certification, such as ISO9001 international quality certification system, BSCI certification, Target quality certification, Amazon quality certification. In addition, we independently developed more than 20 patents.

In order to adapt to the increasing market demand and larger application market, Hongqi built a new industrial production base of 66,667 square meters and a new plant covering an area of more than 80,000 square meters in 2021 in Dashu Industrial Park, Quanjiao, Anhui province. The new non-slip natural rubber project has 8 patented technologies. And our factory has 4 foaming production lines, which currently ranks the largest production capacity in China.

Hongqi staff adhere to the enterprise purpose of "LIVE ON QUALITY, DEVELOP WITH HONEST", constantly learning and improving, pioneering and innovative. With close to the market consumption of product design, huge sales market network, advanced production equipment, strict quality control process, perfect testing equipment, sincere service attitude by Japan, Europe, the United States and other countries and regions of the favor.

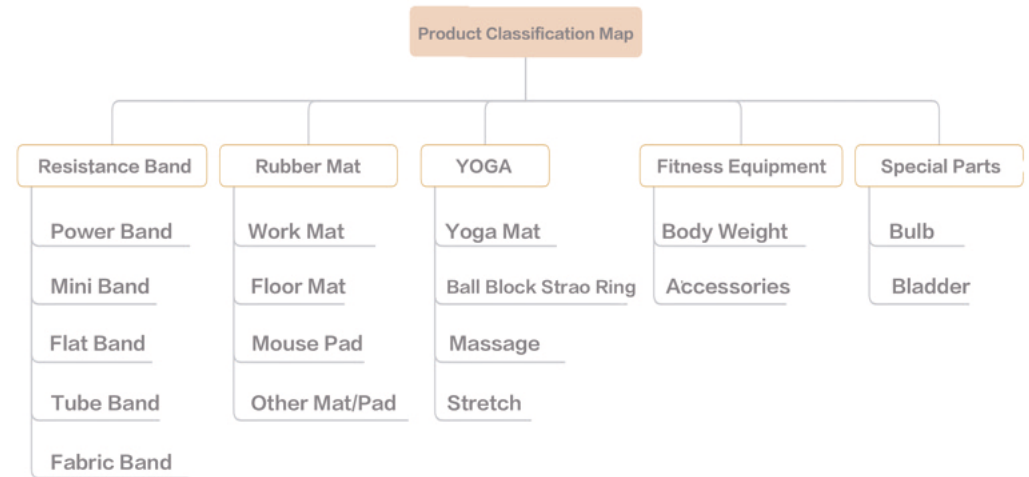

For the development of enterprises, we need our efforts, but also need your recognition and support. We carry out the "excellent quality, customer satisfaction, sustainable management" policy to attract your attention, win your trust, with a pious attitude to promote our long-term win-win.

PATENTS

ADVANTAGE

Technology

Hongqi has a complete latex, rubber, plastic production line. The latex process has the world's leading production process, includes impregnation, thermal sensitivity, casting, die casting.

Product process includes formula adjustment, process package design, production line design, large-scale production planning, etc. We are the only enterprise integrating latex and rubber production.

Capacity

Hongqi has 2 automatic resistance band production lines, 2 mini band production lines and 3 resistance tube production lines and 1 theraband production line. Monthly capacity of resistance series products is 1 million.

Hongqi has 4 rubber foam production lines, which can make yoga mat, floor mat and mouse pad. Monthly offer 300,000 yoga MATS, 2 million mouse MATS and 500,000 floor MATS.

R&D

Hongqi independent research and development capabilities include material properties modification, processing innovation, process optimization design and so on.

Successfully developed bacteriostatic anti-mildew resistance series and skid series, which have effectively increase the antibacterial performance of the product.

The self-developed intelligent resistance material can be used for intelligent fitness equipment.

GentleFlex EcoBand

This resistance band is made from natural rubber with a circumference of 208cm, crafted using an integrated grinding process. The unique curvature design ensures a comfortable grip, preventing discomfort or tightness in the hands. The surface features a patterned design for anti-slip functionality, while also preventing adhesion due to sweat. In comparison to traditional manufacturing methods, the production process is more environmentally friendly, reducing energy consumption by 60% and water usage by 80%. With a patented formula, the band exhibits enhanced antioxidant properties, avoiding the development of white chemical substances during long-term use, resulting in a 50% increase in lifespan compared to traditional resistance bands. It can be extended up to six times its original length.

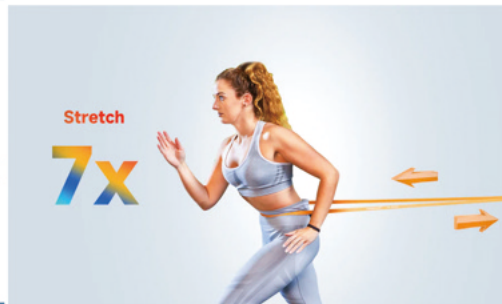

Confort Redefined

Distinctive circular design, devoid of any sharp edges, ensuring a smooth, abrasion-free grip.

Made of Premium Rubber, Durable

30,000 tensile tests, no deformation or broken.

Versatile Fitness Tool

Each band offers distinct resistance levels, catering to a wide spectrum of fitness proficiencies.

Resistance Band

Made with Natural Rubber Latex, our resistance band help increase strength, flexibility and range of motion. Latex bands maintain elongation properties and 100% consistent pull force over repeated use.

Power Band

Material: Natural Latex
SKU: DA
Resistance: 5KG - 90KG

Resistance Band

Fabric Band

Material: CVC, latex thread
SKU: DE
Resistance: 10KG - 20KG

Mini Band

Material: Natural Latex
SKU: DB
Resistance: 1KG - 10KG

Information Record

Flat Band

Material: Natural Latex

Our Customers

Rubber Mat

Anti-skid pads are ubiquitous in fitness and daily life. Based on its strong anti-skid force, it can be cushioned when moving, reducing the risk of movement, also can be applied to bathroom, study, kitchen and other places.

Workout Mat

Material: Natural Rubber
SKU: CA
Feature: combination of soft and hard, super anti-skid

Floor Mat

Material: Natural Rubber
SKU: CB
Feature: super absorbent, safe and non-slip

Mouse Mat

Material: Natural Rubber
SKU: CC
Feature: moderate damping, accurate

Other Mat/Pad

Material: Natural Rubber
SKU: CD
Feature: : sweat absorption, bacteriostasis and

Yoga Product

Yoga is a system that helps humans reach their full potential by raising awareness. Yoga postures use ancient and easy-to-master skills to improve people's physical, psychological, emotional and spiritual abilities. It is a way of exercise to achieve the harmony of body, mind and spirit.

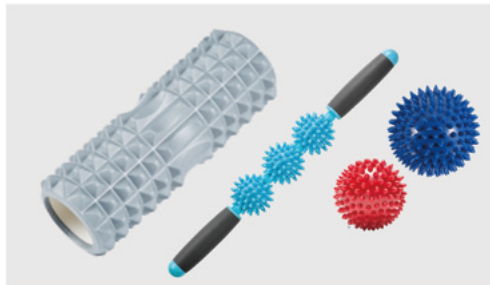

Yoga Mat

Material: Natural Rubber, TPE, PVC
SKU: CA
Feature: combination of soft and hard, super anti-skid

Ball Block Strap Ring

Material: : EVA, PVC, nylon, polyester
SKU: BA
Feature: suitable for all kinds of yoga training

Massage

Material: EVA, PVC, Rubber
SKU: BB
Feature: suitable for all kinds of relaxation massage

Stretch

Material: PVC
SKU: BC
Feature: suitable for all kinds of stretching actions

Yoga Product

Extra Thick Anti Burst Yoga Ball
SKU: BA1 Material: PVC
Size: 55cm, 65cm, 75cm (diameter)

Pilates Straw Yoga Small Ball
SKU: BA2 Material: PVC
Size: 20cm (diameter)

Body Fitness Pilates Ring
SKU: BA3 Material: fiberglass,EVA,foam

High Density EVA Yoga Block
SKU: BA4 Material: EVA
Size: 23cm*15cm*7.6cm, 23cm*15cm*9.6cm

Cork Yoga Block
SKU: BA5 Material: Cork
Size: 23cm*15cm*7.6cm, 23cm*15cm*9.6cm

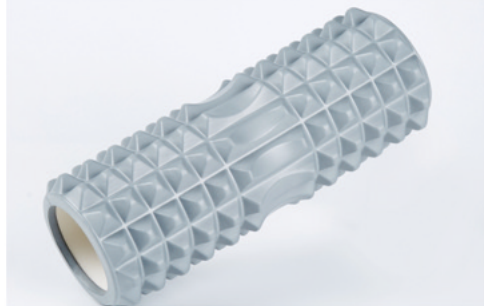

Round Edge High Density Yoga Block
SKU: BA6 Material: EVA
Size: 23cm*15cm*9.6cm

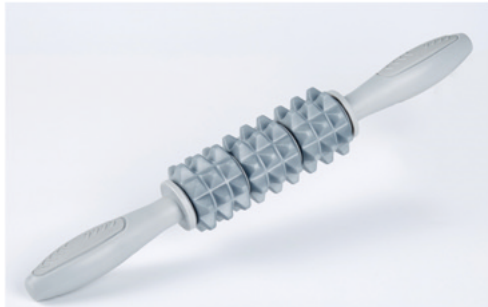

Yoga Product

Yoga Stretch Assist Strap
SKU: BA7 Material: CVC
Size: 200cm (length), 3.8cm (width)

Muscle relaxation massage Foam Roller
SKU: BB1 Material: EVA
Size: 33cm/45cm/61cm (length) , 12.5cm

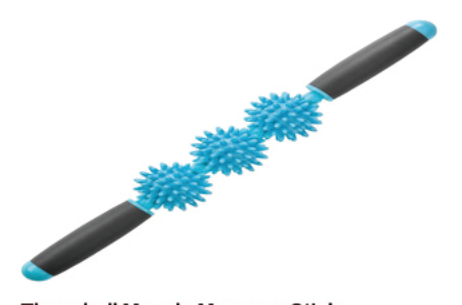

Spike Roller Massage Stick
SKU: BB2 Material: ABS, PVC, Steel
Size: 42cm (length); 5.5cm (roller diameter)

Emboss peanut Massage Ball
SKU: BB3 Material: EVA, PP
Size: 15cm*7.5cm

Circular Roller Leg Massager
SKU: BB4 Material: EVA, ABS
Size: 24cm*26cm

Thorn ball Muscle Massage Stick
SKU: BB6 Material: PVC, Steel
Size: 44cm (length), 6.5cm (ball diameter)

Yoga Product

Spiky Fascia Relaxation Massage Ball
SKU: BB7 Material: PVC
Size: 6.8cm, 7.5cm, 9cm

Deep Tissue Relaxation Massage Ball
SKU: BB8 Material: Natural Rubber
Size: 6.35cm

Peanut Relaxation Massage Ball
SKU:BB9 Material: Natural Rubber
Size: 12cm*6cm

Yoga Oblique Stretch Pedal
SKU: BC1 Material: PP
Size: 25.5cm*14cm, 10cm (foot area width)

Core Fitness Balance Sliders
SKU: BC2 Material: ABS, EVA
Size: 17.8cm (diameter)

Fitness Equipment

Self-weight training, also known as street fitness, is a training pattern that uses one's own weight as resistance. In addition to training muscle strength and shaping a good body shape, self-weight training can also transform these abilities into motor skills and physical energy required by other sports and fitness

Body Weight Training

Material: Steel, NBR, Polyester, Rubber
SKU: FA
Feature: all kinds of small instruments suitable for self-weight training

Accessories

Material: PVC, Polyester
SKU: FF
Feature: all kinds of training auxiliary tools
